DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-322
21 April 1978

MEMORANDUM FOR: Robert W. Gambino
Acting Chairman

FROM: [REDACTED]
Executive Secretary

SUBJECT: DCI Authority for SIGINT Policy [REDACTED]

1. [REDACTED] I met with [REDACTED] Office of General Counsel, on 20 April 1978 to discuss the concerns raised by [REDACTED] on potential loss of DCI security control over COMINT as reflected in DOD/NSA recently proposed changes.

2. [REDACTED] (CIA/SIGINT Group), and I were present. We were agreed that the DOD/NSA language posed little, if any, threat to the DCI authority since other sections of the draft adequately protect his equities.

3. [REDACTED] raised another section (4.e.(3)) which was of concern to [REDACTED]. This had to do with language (again, inserted by DOD/NSA) which would permit the SECDEF to establish special procedures for systematic review and declassification of cryptologic information produced by units under his jurisdiction (read NSA). [REDACTED] appreciated the issue of concern and considerable time was spent in giving him alternative language proposals that would ensure continued DCI authority over sources and methods. [REDACTED] will present these proposals to Tony Lapham with a request that he take them up with DOD/NSA Counsel [REDACTED] and strive for an accommodation. He will inform us of the outcome.

4. Should the point remain contentious, [REDACTED] sees the desirability of a meeting with the DOD/NSA representative to the E.O. drafting group and has asked us to attend. Should we fail at that level, [REDACTED] sees the matter being referred to the President for final decision. [REDACTED] spoke as if he would welcome such a course of action in expectations that the DCI authority over all intelligence matters would be
